There are many times in a day, week, month, season, and year where we need a break, whether for a few minutes or a few weeks. In a time such as now, we really need to pace ourselves to prevent stress, anxiety, burnout, and hysteria. So I thought about putting together an all puzzles issue to help you with both keeping your mind active (read as “distracted”) and giving your brain some rest.

Robert-George de Stolfe

I have made these pages mostly black and white so you can print them out—yes on a computer printer, I know you still have one—to have a physical paper to look at and write on for working out the puzzles, games, etc.

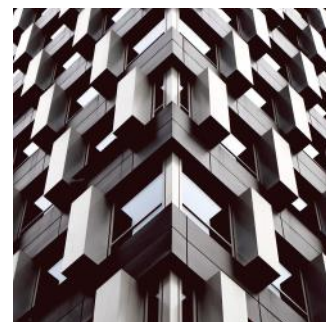

Some of these puzzles are taken directly from the last 35 years of Journals, while some are completely new or retooled. There is a wide variety of puzzle types that should give you something you will like.

I have also included a few games that are derived from game shows, particularly ones that were some of Mom’s favorites that she watched regularly.

Enjoy!

Word Ladder

The process of a word ladder is to change one letter from the starting word onto the next line and to do so until each single letter changes to the word on the last line. Each line is a real dictionary word and the letters stay in the same order throughout.

How Many Triangles?

From the Summer-Fall 1987 issue.

Cryptogram—1

A cryptogram is a word puzzle where a letter is substituted for another letter. The words are in the correct formation but instead have the substituted letters. To solve the puzzle, you need to decipher each letter code and substitute the letters into normal words. The length of each word and particular punctuations will give you clues to solve the puzzles.

Puzzles, Games, & More!

In honor of the late Alex Trebeck, I bring to you JEOPARDY! This was an interactive game I created for the Summer Youth Classes in 2014 that was held at the International Cultural Center in partnership with the National Ranching Heritage Center. The

class was about houses and the different ways people live around the world and how dwellings changed over time. This game was on the last day. The students were taught the information in this game. However, you'll just have to guess! ;-)
